

## Madini Fireplace

Index # 110, Rev-3, 24/05/2019

### DESCRIPTION

This item is supplied as a complete fireplace including Matt Black Steel Enclosure and Gas Fire Burner with either Logs or Pebbles. The fire is operated by an RF Remote System with a handset, the remote is programmable and includes a thermostat to control room temperature, the remote system is battery powered.

The Madini is supplied with either a log or pebble set.

Upgrade the interior of the fireplace from Matt Black to either Brushed or Polished Steel

Gather unit with 125mm spigot (to attach to a flue liner) is also available (see technical notes below).

### CE APPROVAL

The Madini is CE approved for I2H, I2E, I2E+ and is available for all European Countries using this gas type.

### POWER RATING

Natural Gas Only – Heat Input on High 4.9kW, Heat Input on Low 2.4kW

Approximate running costs per hour on high (subject to supplier tariff) 22p/hour.

### DIMENSIONS

Please see page 2 for technical drawings and dimensions.

### OTHER TECHNICAL INFORMATION

1. The Standard opening size for the Madini is 840mm (wide) x 250mm (height).
2. The fire is approved with a minimum flue diameter of 125mm, or minimum area of 125cm<sup>2</sup>.
3. The fire is CE approved with a minimum flue height of 2 metres from the top of the gather spigot.
4. A standard gather can be supplied as an optional extra with the fire and it is strongly advised to purchase the gather with the fire. Using a gather will reduce the possibility of debris falling into the fire from the chimney stack and will help to reduce the draw when using a larger or longer flue system than the minimum allowed. This will also preserve some of the heat and increase the efficiency of the fire.
5. Remote system, the Madini is operated by a battery remote system that has 3x AA batteries within the body of the fire. The fire is operated by an RF handset which is programmable and includes a thermostat to control the room temperature.
6. There is a range of optional extra trims in either 4pc natural stone (which can be bonded directly to wall around the fireplace opening) or a 1pc metal trim in either satin black steel or brushed steel finish.

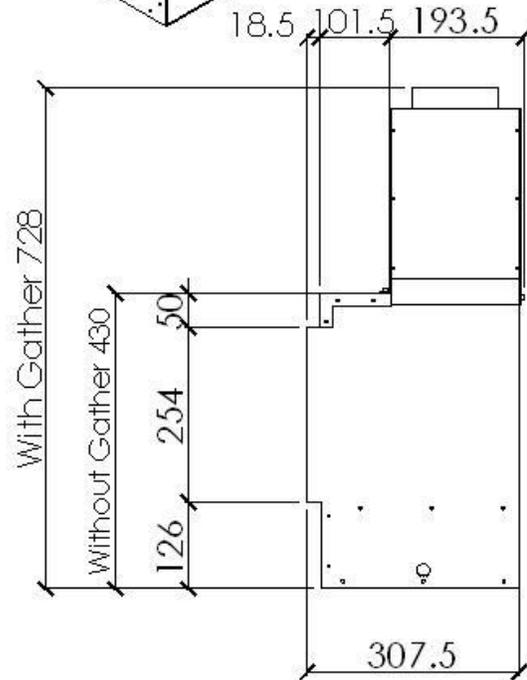

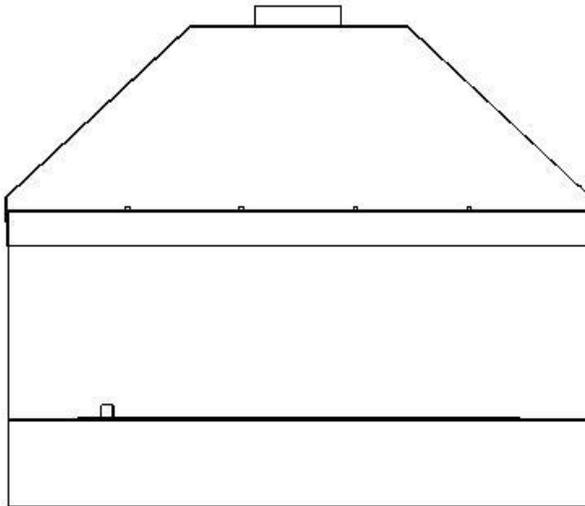

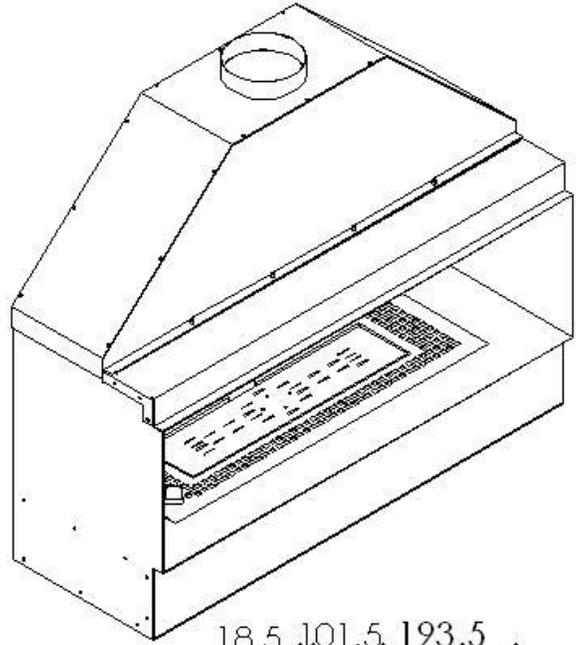

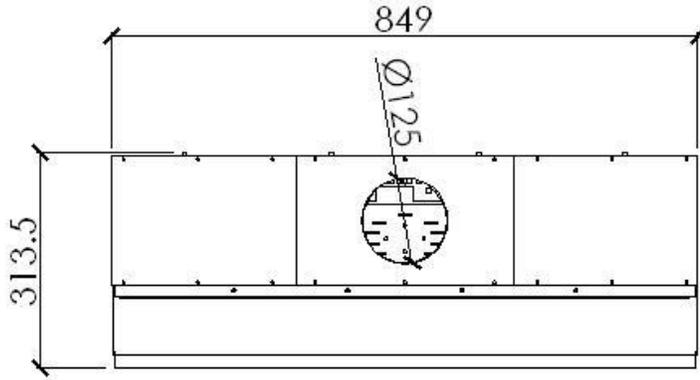

CVO reserve the right to amend and improve the specification sheets without prior notice. If in doubt about any aspect of this specification, please call. The specification is not to be used to install the fireplace. Every fire is supplied with an official install booklet. Spirit Fires Limited own the Spirit, CVO and Firevault Trademarks. Copying and distribution of these specifications is not permitted without the permission of Spirit Fires Ltd. All dimensions include a +/-2mm tolerance.
